Subject: Testimony in Support of HB5530.

When I was in high school in the 70's, we were required to dissect animals. I refused to do it and failed the marking period. I would do it again in a instant.

My daughter had the same problem a few years ago. She opted not to dissect animals, and was given a failing grade. She would do it again.

My daughter and I should not have been put in that position. On every level, to required someone to cut up living things is immoral.

Please support HB5530 so that others are not put in the same position.

Paula Karwowski
